Leamington Launches Community Engagement Portal

May, 2021 - Leamington, ON

The Municipality of Leamington is thrilled to announce the launch of its new community engagement portal, **“Let’s Talk Leamington.”** Residents can now join the conversation on municipality policies, bylaws, services and other initiatives with ease and full access. The online engagement platform provides an easy-to-use and secure way to participate and share ideas on essential matters.

“Let’s Talk Leamington is a major part of the town’s push to be transparent and accessible to our residents and community. This new portal will allow counsel and administration valuable access to the thoughts and feelings of our citizens. The portal allows residents to give their say and provide insight on many of our ongoing projects without having to attend a counsel-meeting or public hearing.” said Mayor Hilda MacDonald.

This new portal aims to respectfully bring residents together in consideration of what we can all contribute so that Leamington is the best place to live, work, and visit. The online portal features surveys, polls, forums, stories, questions, places, ideas and more. The first projects featured on the site include collecting ideas for the former Leamington District Secondary School property and a survey regarding a brand-new giant tomato.

Chief Administrative Officer Peter Neufeld adds, “This portal is the answer to our mission for consistent, coordinated, pro-active and responsive approach with the public. We want to provide as many opportunities for engagement as possible. Despite previous setbacks due to COVID-19, implementing this portal will allow us to consult the public safely and ensuring our many projects and initiatives proceed without delay.”

The Municipality of Leamington invites all residents to visit letstalk.lemington.ca, create an account and start providing feedback today!
